

Interviewee year: 4th Year

Interviewee major: Mathematics

1. Could you please let us know what year and major you're in
4th year MATH
2. Would you say your study habits have evolved in the last couple years (If not a first year) or since you've started university (If first year)
since he had started university
3. When studying for a topic, what do you do if you don't understand something? (Office hours, peer help, google, give up and cry)
Googling, keeping reading the book
4. What would you say your studying style is? Spread out and relaxed or do you grind when you need to
more spread out
5. How did you meet friends in your current degree or friends that you study with?
Being in the same class, being extracurricular together non-school but connected to school
6. When studying with friends, what kind of environment is it? Relaxed, serious etc.
Relaxed
7. Reimagine yourself as a first year with no connections, how do you see yourself meeting people?
**going to exercise session or going to the common study area
(dedicating building like math building), asking someone**

**** Show scenario cards **** (1 card is going to be someone talking to peers around them in class, the second card is going to be posting on reddit for others taking the same class, third card is going to be our app)

8. So in the first 2 cards we've outlined the current solutions to meeting new people. In the third card we're proposing our solution, and it's an app where students can broadcast study groups and find other people who are studying the same subjects as them. This opens students up to a broader network of peer tutoring.

We were also thinking of features like file sharing for notes, being able to check the density of study rooms in university so you can see how busy certain spots are before you check it out, and an interactive map where you can see if there are current study sessions being broadcast. Out of the features we've highlighted so far, which one piques your interest the most?

- **First one (finding people) is really interesting**
- **He does not think use the file sharing because he is using messengers for it already.**
- **He does not believe it will work so he will never use it.**

9. What do you think would make you a user of this app?
if there are half of the students using it, he said he will use it to find people
10. Are there any features that you feel would be beneficial to you as a student?
Common chat room for class (a chat room for each class)
11. Ty for your time etc etc
